

Designation: Power BI Developer

Systemel is looking for a skilled Power BI Developer who will be responsible for designing, developing, and maintaining business intelligence solutions using Power BI. The successful candidate will work closely with IT teams to transform data into actionable insights, enabling informed decision-making at all levels of the organization.

Key Responsibilities:

- Develop, design, and maintain visually appealing and intuitive Power BI dashboards and reports.
- To perform SQL querying for best results.
- To use filters and graphs for a better understanding of the data.
- Create charts and document data with algorithms, parameters, models, and relations explanations.
- Perform data analysis and data profiling to identify trends, patterns, and insights.
- Ensure data accuracy, consistency, and reliability by cleaning and transforming raw data into suitable formats for analysis.
- Integrate data from multiple sources, creating data models and relationships to facilitate complex analyses.
- Develop and optimize SQL queries to extract, transform, and load (ETL) data from various databases and sources.
- Implement best practices in data visualization to ensure the effective communication of information.
- Stay updated with the latest Power BI features and industry trends to enhance and optimize existing solutions.

Qualifications:

- Bachelor's degree in CS or related field (or equivalent work experience).

- Power BI certification is a plus.
- Proven experience in developing interactive and visually appealing Power BI dashboards and reports.
- Strong proficiency in SQL, data modeling, and ETL processes.
- Experience in integrating data from various sources such as databases, APIs, and flat files.
- Familiarity with data warehousing concepts and technologies.
- Excellent communication and presentation skills, with the ability to convey complex data concepts to non-technical audiences.
- Strong problem-solving skills and attention to detail.

Benefits:

- Mentorship and guidance from experienced developers.
- Opportunity to work on real projects and gain practical experience.
- Exposure to the end-to-end development process.
- Room for growth and advancement within the company.
- Competitive compensation package.

If you have relevant experience and are eager to advance your career in power BI development, we invite you to apply and become a member of our dynamic and innovative team.
